OIL REFINERY.

Louisa is Being Considered as a Location.

New York Oil Men are Seeking Significant Information About Our Field and Town.

Some New York capitalists are making investigations with a view to establishing an oil refinery at Louisa. It is an independent company which is said to have built refineries at put several years ago in the oil fields of Pennsylvania. The grade of oil found here appeals to the company and for this reason the prospects for securing a refinery are good enough to be encouraging. If the investigation now being made should result favorably the oil operators and citizens should be ready to lend every possible aid to the enterprise. A refinery would be one of the most desirable industries that Louisa has a chance to secure. It would insure the full price for our oil, thus bringing into the country a considerably larger amount of money than we will get otherwise. Also it would furnish employment for many men and help business in general in a way that we do not now realize. We hope to be able to give more definite information soon about this important matter.

REGULAR COUNCIL MEETING.

The city council met in regular monthly session on last Tuesday night. Beyond the transaction of routine business, only a little was done. Readers of the NEWS will remember that at the March meeting the office of city assessor, then held by J. W. Yates, was, on motion of member C. L. Miller, declared vacant. At Tuesday's meeting member R. L. Vinson objected to the signing of the minutes of the March meeting, declaring that it was not lawful to oust any officer from office without notice and investigation. The objection was sustained and the matter goes over until the next regular meeting of the council.

From Louisa To Van Lear.

Hon. Moles, who has been employed as operator in the C. and O. passenger depot at this place for some time, has been made agent at Van Lear. Mr. Moles has made many friends here, who will be sorry to see him go, although the appointment is a promotion. He is a courteous and efficient employee.

FRACTURED HIS SKULL.

In a difficulty which occurred on Morgan's creek, this county, on Sunday last George Adkins struck George Savage on the head with a fence paling, fracturing the left side of the skull. Dr. York, of this city, went to Savage's home on Tuesday and trepanned the skull, removing a large piece of bone.

Adkins was arrested and brought to Louisa by a constable, and Judge Rogers, not knowing the extent or nature of the wound, released the defendant on a \$200 bond. Later the Judge learned of the serious character of the injury and issued a felony warrant and put it into the hands of the Sheriff for execution. Up to the hour of going to press the NEWS had no later information.

It is said that Savage was under the influence of liquor at the time the affray occurred.

Both parties are young men. Adkins is a son of John D. Adkins and Savage is a son of Lewis Savage.

RUNNING AT LARGE.

There has been much complaint concerning some small boys, who, if they have homes, don't seem to stay in them very much. They hang around the stores, shops and other public places, annoy pedestrians and are nuisances generally. The devil usually finds something for idle hands, and what he finds costs dear.

How To Preserve Your Buildings.

The season is here for dressing up your buildings in a new covering of paint for the sake of appearances as well for preservation. A few dollars spent in this way in time saves many more in protection. The Snyder Hardware Company makes a lot of good lines of paint. Give them a call.

Returned to Offutt.

Mr. and Mrs. W. E. Perry and daughter, who had been in Louisa several days, returned home Tuesday. Miss Perry had been in the hospital, where she was successfully treated by an operation for ear disease.

Kentucky Educational Association.

If you should dip up Lake Erie in a tin cup, pint at a time and pour it on the big turbin wheels in the wheel-pits at Niagara Falls, you could hardly get them damp. But let a great body of water tumble through the tunnels, and the wheels are driven to generate energy sufficient for running all the machinery within two hundred miles of the falls. The water has might only when it falls in large volumes.

The principle holds as good in political and social science as in physics. The sum of the forces of a number of units is greater the closer the aggregation of units.

The irresistible rushes of Napoleon and Cui; the successful work of parties and sects; the powerful influence of organized public opinion in any great matter—all these, though widely differing, are based upon the principle illustrated above. To make intellectual or moral forces most effective, they must be made to act in the same direction at the same time.

Every teacher in Kentucky is a unit of force. Every one of the ten thousand teachers of Kentucky is doing a faithful, earnest and in most cases, efficient work. But how vastly more efficient work could be done by these units of teaching force acting together—by aggregating. The Kentucky Educational Association is sounding a clarion call to all teachers in Kentucky and asking for their presence at the Louisville meeting on April 30, May 1, 2 and 3, for the purpose of more effective organization, a uniting of forces for the benefit of the school and the teacher as well.

WHITESBURG BOOMING.

The Capital City of Letcher County is Growing Rapidly.

WHITESBURG, KY., March 31.—Whitesburg, a long neglected, backwoods town, is since the coming of the Lexington & Eastern railroad, and the development of the vast coal fields surrounding, meeting with a solid, substantial growth that will make it the best town on the whole upper section of the L. and E. It is safe to say that within the past year there has been more building in Whitesburg than in any five years of the town's history. At present there is a considerable amount of building going on.

The Whitesburg graded school building, to cost about \$30,000, is well under way, while her church buildings in process are: The Missionary Baptists, who will construct a \$70,000 building; the M. E. Church South, who will build an up-to-date church edifice.

Ira Fields is completing a first-class business block, hotel, drug store and offices on Webb-av., the Rev. L. F. Martin, formerly of Lexington, is pushing the construction of an office and business block in the upper end of the town; the Mountain Eagle will begin at once the construction of an up-to-date home for "The Bird," as it is usually called; Adams Bros., have just completed a good store building on Main street; the Whitesburg Canning Company is building a first-class canning plant in the Lewis addition; the L. and E. railroad people will rush an up-to-the-times depot; the Whitesburg Wholesale Grocery Company is putting the material on the ground for the erection of a large building on East Side, near the depot; Attorney D. D. Fields is erecting a first-class concrete business block at the corner of Webb-av., on Main-st.; S. E. Holcomb is rushing to completion a first-class hotel and residence; Major John A. Webb has just completed a \$7,000 residence on Webb avenue; Wesley Wright, of Jenkins is making plans for an electric light plant to be installed here within the next six months.

A move is also on foot to spend thousands of dollars on Whitesburg streets. The county has lately completed an up-to-date steel bridge across the Kentucky river, connecting the business district of the town with the L. and E. depot, while some \$10,000 to \$12,000 is being spent on bridges out in the county. One will span the river at Mayking, five miles above here.

It can be seen that the little mountain city is on the upward march of improvement; the year 1913 will be a record breaker in the way of improvements.

A BAD FILL.

Regular transportation on this division of the C. & O. has been much deranged this week by a break in the fill across Rush creek, a short distance below Buchanan. A large force has been constantly at work there, and it will not be long before trains will run regularly.

LARGE TIMBER TRACT BOUGHT.

A. Collinsworth and E. M. Ramey, of Fallsburg, have purchased from the Guyandotte Coal Land Association 1400 acres of timbered land on Twelve Pole in Wayne county, W. Va., and will begin at once to convert the timber into cross-ties and mine timbers for use in the coal business and timber men.

HARROWING(?) EXPERIENCE

Of Prof. Hoeling When he is Said to Have Paddled Across Well-Bridged Rivers.

Frankfort, Ky., April 2.—Prof. J. B. Hoeling, director of the Geological Survey, has returned from the vicinity of Whitesburg, Letcher county, after covering 200 miles either on foot or in boat, arriving at Ashland with the first authentic news out of the Big Sandy Valley. He said when he passed through Jenkins and McRoberts provisions were growing scarce in those towns. Efforts were made to carry provisions there in wagons, but the roads were washed out and in many places impassable, and the railroads have ceased operating. He doubts whether provisions can be taken into the towns any way except on the backs of men. The fall is so great, however, in that section that as soon as the Ohio permits the water will run out of the mountains.

Prof. Hoeling was with a survey camp a short distance from Whitesburg. He started away as soon as the perils of the situation became apparent. He left Whitesburg Thursday and did not reach Ashland until Sunday. He had attempted to telegraph to his family at Lexington, but after he reached home he received by mail the money he had paid for sending the message. The wire was useless.

He found that it was impossible to make his way over the mountains horseback and set out afoot. He caught a ride on a handcar for seven miles in a blinding snowstorm, climbed mountains, the roads of which were obliterated by landslides and washing, and slid down the opposite slopes, risking his life every hour. At Louisa he was rowed across the river and made his way to Kenova, W. Va., where trainloads of passengers had been abandoned. All the way up the river he saw freight and passenger trains standing on the tracks in the water, abandoned with their engines. He tried to go to Catlettsburg, but the chief of police said it was the only means they had of rescuing people from the flood, and just at that moment the boatman announced to the chief that they were out of gasoline and there was no more in town.

Another wayfarer suggested to Prof. Hoeling that if they could get to Catlettsburg they would find a good hotel. They secured a skiff and were rowed across, but when they approached the hotel, dodging the branches of trees that almost brushed them out of the boat, they saw boatmen taking guests out of a second-story window. Their own boatman then rowed them to the nearest hill whence they made their way by a circuitous route into Ashland. With the water supply cut off and the gas gone, guests at the hotel in Ashland were living meagerly, and candles were burned for lights.—Courier-Journal.

After reading the foregoing one will conclude that the Prof. had a hard time escaping after so many adventures by flood and field. Crossing the river at Louisa in a skiff, with a fine bridge from shore to shore, he equalled only by that famous celt of Thompson, that ran into the river to get out of the rain. From the narrative as related above it appears that the wayfarer and his guide failed to pay any attention to the Big Sandy bridge, reaching from the suburbs of Kenova to some distance into Catlettsburg.

PAINFUL ACCIDENT.

While at the big newspaper press in this office Wednesday morning Jesse Roberts, the pressman, had his left foot caught in themachinery and the result was a fracture of his left great toe. The accident will lay him up for two or three weeks. Dr. Burgess rendered the necessary surgical aid.

THE TELEPHONE SERVICE.

Big Sandy people do not understand why the Southern Bell Telephone company permits its line from here to Huntington to remain on such low ground in only two places, that the annual high water stops the service to Huntington and therefore to all other points in the outside world. The two places referred to are at Hubbardstown and Whites Creek. The distance at each place on low ground is short and there should be very little difficulty in changing the line to higher ground. The loss to the company in business to and from the Big Sandy valley is considerable and the inconvenience to the public is great.

MEETING HAS CLOSED.

Dr. McClay's meeting at the M. E. Church closed on Sunday night last. Attendance and interest continued from first to last and much good was the result. Before the sermon of Sunday night the congregation was asked for a contribution for Dr. McClay, and the response was very liberal.

Brothers Rival Candidates.

Pike county will likely furnish the unique spectacle of brother running against brother for the same office. Dave H. Hatcher is already an announced candidate for the Democratic nomination for County Clerk, and his brother, Lee Hatcher, has indicated that he will be a candidate for the Republican nomination for the same office. Both are active leaders in their respective parties and the ties of kin are not considered when it comes to a political fight.

CHAMPION WALKER.

Will Ellis, mail clerk on the Big Sandy Division, deserves the prize as the champion walker in an effort to reach Ashland during the recent high water. Mr. Ellis was doing service on the upper Big Sandy Division, coming only as far as Louisa. When he found out how high the water was in the Ohio river, and being unable to get transportation past Louisa, he decided he would take to the hills and walk down. He came through all right by way of Cannonsburg, and reached the city Sunday noon, very much fatigued, but glad to get here, and to know that his home folks were safe. He returned to Louisa by way of Kenova.—Ashland Independent.

COLD AND DARK.

Because of high water and consequent derangement of the gas service the Fort Gay people, most of them, have been without light and heat for several days and nights.

CONTRACTS TO LET.

Road Work That Should Interest Many Lawrence County Citizens.

The road from Louisa corporation line to head of Blaine is measured into two miles sections and posts set at the intersections. Also the road to Webbville the same as above. The road known as the Louisa-Blaine road will be let to contract to the iron bridge across Big Blaine creek at Koun's store. The road to Webbville will be let to contract to the bridge across Dry Fork at Webbville. Brushy creek from the bridge across Brushy creek near its mouth to Lon Hulet's will not be contracted. The County Judge will receive sealed bids till noon April 19, 1913, for putting into condition and maintaining these various sections of road, and award contracts to the lowest responsible bidders, for one year ending April 1st, 1914. Specifications, contracts, etc., may be seen at the office of the County Road Engineer. The county reserves the right to reject any or all bids. Bids will be opened and examined at 1:30 p. m.

B. J. CALLOWAY.

THE ROAD CONFERENCE.

The Good Roads conference now in session in Louisville can be made to produce results, its delegates are trained men, acquainted with local conditions and understanding local needs. As usual, the Federal Government has furnished speakers who are experts in the general theory and practice of road making. But the problem to be worked out is a problem for Kentuckians for Kentucky.

Mr. B. J. Calloway, county engineer for Lawrence, had the enterprise to attend this convention. No doubt that he will profit by so doing.

AN EXPERT IN HIS LINE.

J. Isralsky knows a few things. One of them is how to advertise successfully. It is hardly necessary to call attention to his two-page ad. in this issue. It is strong enough to arrest your attention and interesting enough to repay you for reading it through. In addition to this large ad., he has distributed ten thousand of the largest posters ever printed in the NEWS office. This was made necessary by the large and important message that this hustling merchant has for the people of this section.

Attended Good Roads Meeting.

County Engineer B. J. Calloway returned yesterday from Louisville, where he attended a State meeting of road engineers and officials. The large damage done by water in this county recently had dampened his ardor somewhat, but he has come home with a new supply of enthusiasm, ready to continue the fight for good roads as vigorously as possible.

Government experts were there who convinced the meeting that good dirt roads are possible and are even better than macadam roads that do not have constant attention. Proper location and drainage are the secrets of good dirt roads. Maintenance is then easier and cheaper than other roads.

It developed at the meeting that Lawrence is the only county except Jefferson that is organizing its road work and having pieces built by school boys.

BY DIRECT VOTE.

United States Senators to be Elected by the People Instead of the Legislatures.

The election of United States Senators by direct vote of the people was assured Tuesday when the Connecticut Legislature ratified a proposed amendment to the constitution. Connecticut makes 36, or three-fourths of the states which have given their approval to the reform.

It will become effective as soon as the action of the states shall have been certified to the State Department and Secretary Bryan shall have issued his proclamation.

This changes the time of election of the Kentucky Senators to the general election immediately preceding the time when the vacancy occurs in the office. This election will occur in November, 1914. The primary, therefore, in accordance with the state primary law, must be held during August 1914.

The effect of the postponement of the primary on the present candidates may be great. In the meantime other candidates may appear. The candidates for the House of Representatives will be selected at the same primary at which the senatorial candidates are named. Stanley, therefore, will have to choose between being a candidate for the House or Senate.

BAD ROADS DEPRESS VALUES.

A Kentucky paper recently made mention of the fact that two home-seekers from a neighboring State had visited a Northern Kentucky county looking for land. They liked the land, but refused to buy it because of the miserable condition of the roads in its vicinity.

Some months ago Joseph E. Wing, a well known Ohio farmer, came South on a prospecting trip with a view of buying land. In a letter recently published in the Breeders Gazette he makes some interesting comments on road conditions. Mr. Wing says in part:

"We were cursing for land in—well, never mind what State it was; it might have happened in almost any State. It was not exactly a new country, but it was rather sparsely settled. None of the roads had been graveled or macadamized, and it had rained a very great deal. The roads were very primitive, yet they were nicely rounded up and had been kept nicely dragged. We overlooked and passed a four-mule team hitched to a King drag; the use of the team was paid for by the community. After each rain it is the custom to drag these roads. We grumbled a little at the occasional chuck holes, but in the main the road was delightful and our horses trotted briskly along. We gave the roads so little thought (we do not think about things that are giving us little trouble) that we had time to inspect the farms that we passed by and to discuss their advantages and desirabilities.

"Suddenly we left the good roads. We came into another State and to a region where the roads are neglected. It was after a wet winter. The roads were awful. Now and then they became impassable, and we took to the pastures to avoid dangerous mudholes. When we found any 'repair work' done it was of the crudest sort, like throwing branches of trees into the mud. Two strong horses attached to our buggy began to become distressed as they labored through the mud. The soil and topography were the same as we had left, the sole difference that now no one dragged the roads. We were at first amused, then frightened, then indignant. It seemed that we would never without killing our horses get through. Finally we met a man with good horses and a buggy, going in the opposite direction. We halted him and demanded: 'Why can't you tell us, sir, I reckon because we never have done it.'"

"I would not accept a farm on those undragged roads as a gift and live on it as men do to-day. Civilization, education, progress—these things are impossible where such roads are. Further, the effort of horses to drag vehicles through that mud is at least fifty times the effort that would be necessary to keep those roads dragged dry and drivable."

Good roads increase land values and bad roads hold values down. Muddy roads repel home-seekers and investors and obstruct progress in every way. Kentucky has large areas of good farming land that will never be worth much to the owners until the incubus of bad roads is removed. Farms that are isolated for several months in the year by highways like those described by Mr. Wing can have but little value in the eyes of the really progressive farmer.

SCORES AND GOOSE EGGS.

The Louisa base ball aggregation went to Paintsville Saturday and engaged the aggregation of that village in a game. The score showed 17 in favor of the visitors as against a collection of well cooked goose eggs for the visitors.

Testimonials Of Appreciation.

Officials of the Chesapeake & Ohio Railway Company were much gratified because of the receipt of an unsolicited testimonial of appreciation of the manner in which their trains and train services were handled during the period of the recent disastrous floods. One was the letter which was received from passengers on one of the trains, the crew of which succeeded in getting the train safely through the flood in and around Catlettsburg. The letter expresses the thanks of the passengers on train No. 3, March 28th, to the men who so ably assured their safe passage over what appeared as an impassable barrier.

HELP COMING.

To those whose business or pleasure leads them to traverse the streets of Louisa by night the News brings the tidings of more light. The old reliable night light, the moon, has begun its work of illuminating the dark places, and for two weeks, at least, if the weather be clear, our people will not have to depend on light from the stores and John Jeems' livery stable for guidance.

YE ANCIENT FISHERMAN.

Al. Savage, native and to the manner born, was up from Ashland last week to revisit the scenes of his youth. When he lived in Louisa he could catch more fish, with a piece of store twine for a line and a bent pin for a hook, than the angler with the most approved tackle could get all day.

FLOOD AT CATLETTSBURG.

A Few Details of the Damage Wrought in Our Sister City.

This the greatest flood of which we have any record since the time of Noah did not succeed in wiping our town off the map, although it is badly crippled and cannot recover from the blow for some time. Some of the smaller homes have been swept away in the city and suburbs, but all larger structures, including homes, churches, business houses and schools are still standing like grim sentinels, having defied the winds and water. Everyone is at work, trying to restore order out of chaos. Stores are being overhauled so that business may be resumed in a few days. All business is at a standstill at present.

Our big-hearted citizens took the matter of the destitute in hand at once, and a relief station was established. The depot, before it was submerged, sheltered many homeless. Also the public school building is still the home of refugees. In most of the larger homes the families were quartered in the upper stories and had removed their effects there. Those who had to leave found refuge with friends who lived on the hills. No one has been permitted to suffer. The city looked after the welfare of the helpless single-handed, until relief supplies were received from other quarters.

Many supplies of food and clothing have poured in, also money. Pikeville, Paintsville and Louisa each sent a separate car load of supplies. Relief supplies also had been liberally sent from other quarters. In several instances heavy furniture, including pianos were scaffolded on the first floor and were submerged and badly damaged. The 1,000 piano, each of Mrs. D. H. Carpenter and Mrs. Curry met such a fate. Also those at the homes of J. C. Hogan, Davis Meek, Dr. Heanre and several others. The \$2,500 piano organ at the M. E. Church was partially submerged. The seats and carpets are ruined. The Baptist Presbyterian and M. E. Churches were badly damaged on the interior.

Much plate glass was broken on Division street, by a house which floated from Front street and dined on the big waves along Division. Hogan's drug store suffering the worst from this.

Mr. Gunnell's auto was totally submerged.

Oakland avenue, Louisa and Pannola streets and Broadway also the entire business center was a flowing sea, and much house furniture and many kitchen utensils were swept away. The flood was 14 in. higher here than that of '84.

The home of W. H. Flanery, better known as the Mrs. Elliott home, was the only one except those on the hills that escaped in 1884. The water at this time attained a depth of one foot on the floor and the boats piled all around it.—Ashland Independent.

Ashland District Conference.

The Ashland district conference will be held at Louisa. The opening sermon will be preached Monday p. m., May 19, 1913.

SERVICE AT BAPTIST CHURCH.

The Rev. W. J. Vaughan will preach in the Baptist Church on Sunday next. Mr. Vaughan is a fluent speaker and has the ability to make what he says interesting.

BEST KNOWN COUGH REMEDY

For forty-three years Dr. King's New Discovery has been known throughout the world as the most reliable cough remedy. Over three million bottles were used last year. Isn't this proof? It will get rid of your cough, or we will refund your money. J. J. Owens, of Allendale, S. C., writes the way hundreds of others have done: "After twenty years, I find that Dr. King's New Discovery is the best remedy for coughs and colds that I have ever used." For coughs or colds and all throat and lung troubles it has no equal. 50c and \$1.00 at Louisa Drug Co.

DUN SCALES, O.

Mr. and Mrs. O. E. Sanders were visiting the latter's parents Friday and Saturday.

Miss Lula O'Bryan, the daughter of Lewis O'Bryan was taken to the Protestant hospital, Columbus, last Monday to be operated upon for appendicitis.

Those present at Mr. Lewis O'Bryan's Sunday were: Mr. and Mrs. Lindsey Boyd, of Rosedale, Jack Fenner, of Resaca, Misses Maud and Bessie Sparks, and Miss Eva O'Bryan, of Lafayette; Mr. and Mrs. Dave Dey, of Perry, John Hoover and family, and Geo. Duglas.

Lewis O'Bryan returned home from Columbus Friday where he had been at the bedside of his daughter, Lula, and reported her getting along nicely.

Graden, the little son of Wesley Miller, fell and broke his arm last Monday.

A FRIEND.

You will look a good while before you find a better medicine for coughs and colds than Chamberlain's Cough Remedy. It not only gives relief—it cures. Try it when you have a cough or cold, and you are certain to be pleased with the prompt cure which it will effect. For Sale by Louisa Drug Co.

FOWLETON, TEXAS.

Business in general here is very dull, but most of the farmers are busy planting their crops. Many of the farmers that have lived here for forty years say it is useless to try to farm this year for their sign for "he rain this March has failed to appear so drouth they say is the result, but the future is yet to come."

Several farmers and business men from the north have been here purchasing land this winter and spring, but a number that were here is returning back to their old home, while a few are staying.

Most of the soil in this section of the state is fertile, but not enough rain some years for farming.

Hamilton and company are having a nice trade now adays.

Sherman and Alfred Evans were calling on Mr. C. Carpenter Sunday.

Mr. Ritter was calling at Mr. Hamilton's Sunday.

Dr. Hale, who has been visiting his father in Mo., has returned.

The weather is fine here at present, though at times it is very changeable.

LONESOME BOY.

ARE YOU CONSTIPATED?

If so, get a box of Dr. King's New Life Pills, take them regularly and your trouble will quickly disappear. They will stimulate the liver, improve your digestion and get rid of all the poisons from your system. They will surely get you well again. 25c at Louisa Drug Co.

BERNARDO CHIEF 4308

In offering the services of Bernardo Chief 4308 to the public we do so knowing that not so good a horse has ever stood in Lawrence Co. nor none his superior in the mountains. A tree is known by its fruits, a horse by his colts. You have but to come to the neighborhood where he has made the last two seasons to be convinced the above statement is true. The colts have the same gait of their sire. Bernardo Chief 4308 was sired by Sterling Chief 2079, he by Bourbon Chief 978, Dam Bessie L. 1438, Bourbon Chief by Harrison Chief 1606, Dam Belle; Bessie L. 1438 by Forrest Denmark 153, Dam Pattie 23; Harrison Chief 1606 by Clark Chief 89, Dam Lute Boyd; Belle by Latham's Denmark 69, Dam Dan; Forrest Denmark 153 by Mambrino Forrest, Dam Old Queen Denmark, Pattie 23 by Blue Jeans 3-1148, Dam Puss 109. "Pittsburgh Perfect" Fence

Save Money on your Fencing by Putting up the Style Made to Meet your Requirements

It's downright foolishness to buy light chicken wire to put around your bull pasture—and you know it.

But some people do it because they don't think beyond the price-ticket on the roll of fence—at least not until they've had to patch the chicken wire a dozen times or so where that bull went through.

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

"Pittsburgh Perfect" Brands of Barbed Wire: Bright, Annealed & Galvanized Wire; Twisted Cable Wire; Hard Spring Coil Wire; Fence Staples; Poultry Netting Staples; Regular Wire Nails; Galvanized Wire Nails; Large Head Roofing Nails; Single Loop Bale Ties; "Pittsburgh Perfect" Fencing. Mrs. Careworn—"Mrs. Easy-work and her husband went to the theater last night, and I suppose her wash got a lick and a promise. Any woman who does her work right is too tired to go out Monday night."

Anty Drudge—"No, she didn't let her work go! I'll tell you what she did. She used Fels-Naptha Soap, which does the work in half the time, and doesn't give you a back-ache in doing it."

No woman who uses Fels-Naptha Soap to help with her work needs to be tired out. Fels-Naptha Soap in cool or lukewarm water dissolves grease and makes dirt and stains disappear.

Washing clothes, housecleaning—doing any work for which soap and water is necessary, is made twice as easy, and done in half the time by using Fels-Naptha, and following the directions on the Red and Green Wrapp.

Pennsylvania joined the ranks of the States that have ratified the proposed amendment to the federal constitution providing for the direct election of United States Senators, making the thirty-fifth to fall in line. The vote of only one more State is needed to make the amendment effective.

Washington, April 5.—Ohio's loss in the recent flood is now estimated in a telegram from the American Red Cross agent in charge at Columbus as follows:
460 lives lost.
4,300 homes destroyed.
40,500 persons homeless.
9,000 families outside of Dayton, Columbus and Cincinnati in need of rehabilitation.

President Wilson stood on the Speaker's rostrum in the hall of the House Monday and personally read his first message to Congress, the first President since John Adams to exercise that privilege. The renewal of a custom a century abandoned and now surrounded by such wide differences of opinion among members of Congress itself, attracted to the Capitol an assemblage necessarily less in numbers but certainly no less distinguished than the company which attended the President's inauguration. The message dealt curtly with revision of the tariff.

The Board of Health Speaks.

To the Officials and People of Kentucky:

In view of the danger to health and life in most of the river counties and cities from unsanitary conditions and damage to water supplies, which will become more pronounced as the floods recede and the season advances, the State Board of Health, in the discharge of an evident public duty, appeals to the health and civic officials, the newspapers, business men's association, women's clubs, and the people in every town and county in the flood districts, to call public meetings or in other ways arouse public sentiment for an organized, systematic and thorough clean-up campaign, the free liming and whitewashing of all recently overflowed premises, and the boiling of all suspicious drinking water.

Competent health boards and officials exist in every county and city in the State for such emergencies, but they are entirely dependent upon the fiscal authorities of the jurisdiction for funds, and upon the people for such co-operation as will make their efforts effective. After the officials do all that is in their power, still more will remain to be done by the individual and family, and no good citizen should wait to be forced to an evident duty especially as such work and the incident expense will be found far cheaper than the sickness which will follow neglect. Trained inspectors are now in the most exposed sections, but the main responsibility is with the local officials and people, and it is to them that this appeal is addressed.

By authority of the Board.
JOHN G. SOUTH, M. D. President.
J. N. McCORMACK, M. D. Secretary.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIME.

To Edit a Newspaper.

Dr. Talmage, one of the greatest pulpit orators, in one of his sermons on the "Spirit of the Press" said:

"To publish a newspaper requires the skill, the precision, the boldness, the vigilance, the strategy of a commander in chief. To edit a newspaper requires that one be a statesman, an essayist, a geographer, a statistician, and, in acquisition, encyclopediac. To man, to govern, to propel a newspaper until it shall be a fixed institution, a national fact, demands more qualities than any other business on earth. If you feel like starting a newspaper, secular or religious, understand that you the being threatened with softening of the brain or lunacy, and throwing your pocketbook into your wife's lap start for some insane asylum before you do something desperate.

"First of all, newspapers make knowledge democratic and for the multitude. The public library is a haymow so high up that few can reach it while the newspaper throws down the forage to our feet. Public libraries are the reservoirs where the great floods are stored high up and away off. The newspaper is the tunnel that brings them down to the pitchers of all the people. The career use of great libraries is to make newspapers out of. Great libraries make a few men and women very wise. Newspapers lift whole nations into the sunlight.

"You cannot find ten literary men in Christendom with strong minds and great hearts but are or have been somehow connected with the newspaper printing press. While the book will always have its place, the newspaper is more potent. Because the latter is multitudinous do not include it is necessarily superficial. If a man should from childhood to old age see only his Bible, Webster's Dictionary and his newspaper, he could be prepared for all the duties of this life and all the happiness of the next.

"There is not a single doctrine of theology but has been discussed in the last ten years by the secular newspapers of the country. They gather up all the news of all the earth bearing on religious subjects and then they scatter the news abroad again. The Christian newspaper will be the right wing of the apocalyptic angel. The cylinder of the Christianized printing press will be the front wheel of the Lord's chariot."

The Fireplace.

Notwithstanding all the modern inventions for heating I tell you there is nothing so full of geniality and sociability as the old-fashioned country fire place. The neighbors were to come in for a winter evening of sociability. In the middle of the afternoon, in the best room in the house, some one brought in a great black log, with great strain and put it down on the back of the hearth. Then the lighter wood was put on arduous after arduous. Then a shove of coals was taken from another room and put under the dry pile, and the kindling began, and the crackling, and it rose until it became a roaring flame which filled all the room with geniality and was reflected from the family pictures on the wall. Then the neighbors came in two by two. They sat down, their faces to the fire, which ever an anon was stirred with tongs and readjusted on the andirons and there were such times of rustic repartee and story telling and mirth at the black stove and blind register never dreamed of, meanwhile the table was being spread, and so fair was the cloth and so clean was the cutlery they glisten and glisten in our mind to-day. And then the best luxury of orchards and farm yard was roasted and prepared for the table to meet the appetites sharpened by the cold ride. We heartily wish for a return of the old fire place. Our readers, whose looks have whitened by the frosts of many winters, know that this pen picture of the fireplace is true to life.

Don't be afraid to do your duty because some one ridicules or opposes you. A man who has opinions of his own and the courage to advocate them will be sure to have opposition in the world because he runs contrary to other people's opinions; but just keep right ahead if your cause is right and your conscience clear. Don't bother yourself about what people say; life is too short for that. Some will abuse you through envy, others for the want of principle, and some because they honestly differ from you; but if you keep right on openly, manfully and intelligently and with proper dignity and character, honesty of purpose and self-respect, those who differ from you will respect your opinions.

An idle and vacant life, even with all the amusement can give, is not calculated to be a happy one; and this simply because Providence has constituted us with a view to activity as that was to be the means of accommodating the raw materials of the physical world to our needs. Idleness, therefore, injures and disorganizes, while activity alone will preserve health and prolong life. Who are the happy people of this world? Those who have something and not too much, to do; that something being suitable to their tastes. Who are the unhappy ones? Alas! What a large portion of the class is composed of those who, having all their needs supplied from other sources, do not need to labor.

Rev. Lucien Kirk, pastor of the Presbyterian church, went to Inez Monday morning to visit his family.

J. D. Keel, the newly elected county treasurer, is in town to-day to take over the books and fixtures belonging to his office as soon as the settlement is made with the old treasurer, G. W. Vance.

Mrs. Lizzie Osborn, of Whitesburg Ky., came up Saturday to give bond as the administrator of the estate of her mother, Mrs. Morg. Turner. She was accompanied by her son Hobart.

G. D. Hyden, of Seattle, Washington, began a series of meetings here last Friday night. He claims to have received the Apostolic power of the Holy Ghost, and large crowds have been attending his services, and on Sunday night the church would not hold the crowd and standing room could not be had. Many persons leaving on account of not being able to get in. Rev. Hyden is a mountain man, having been born in Floyd-co., and has been in the ministry many years. He is a man of a wonderful gift of speech and is attracting large crowds.

The fiscal court met Monday to make settlement with the outgoing County Treasurer, G. W. Vance. All the Esquires, were present except Geo. Elliott. This settlement shows that the County Treasurer has collected \$6000 in the last three years and has paid out \$58,270, leaving a balance of \$1,724 in the Treasury. This leaves the county owing about 35 per cent. of 1911 claims, with \$17000 allowed for the year 1912 and with the revenue of 1912 collected will put the county practically out of debt.

Now that the Webb Kenyon liquor law has taken effect, we rarely see a drunk man in our town, and these rare drunks are said to be caused by some one selling Electric Bitters, etc. If this be true we hope our city officials will be able to get them, in the tools of the law as same as any other bootleggers.

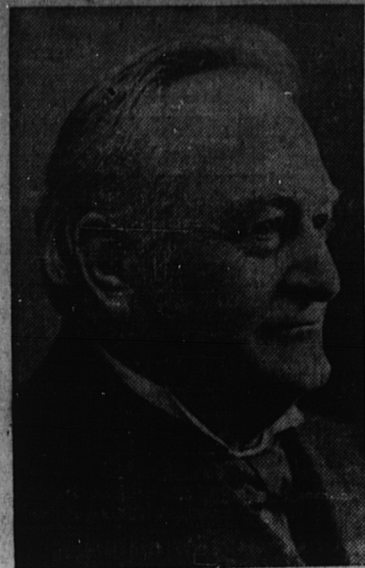

Our City Marshal, James Sizemore has just returned from Middletown, Ohio, where he has been for the past two weeks. Mr. Sizemore was visiting his cousin, and when the floods came he was unable to get home as soon as he had hoped.

When the 7:15 westbound C. and O. passenger train arrived at Prestonsburg Monday morning, there was seen to alight therefrom a young man and maid, inquiring for the county court clerk. It was plain to be seen they were looking for a marriage license, and the curious folks began to go toward the court house, and by the time the clerk had issued the license, quite a number of people were there to witness the nuptials. Judge Malone Hall officiating. They gave their names as Grant Haynes and Elam Blankenship. They left town before the boys could get their bells and pans.

Constipation and Catarrh

S. B. HARTMAN, M. D.

You are constipated. You have taken laxatives a great many years. You have tried to select a diet that would keep your bowels regular. In this you have failed and were obliged to go back to your laxatives again. This, I say, has been going on many years. You also have a slight catarrh in the head and throat. You never imagined that the catarrh had anything to do with the constipation. Suppose I were to tell you that as long as you have that catarrh you will never get better of your constipation. Would you be ASK YOUR DRUGGIST FOR FREE

Have me? Well, whether you would believe me or not it is the truth. For many years I have been wrestling with the problem of furnishing the public an internal catarrh remedy. Peruna has been the remedy that I have devised and it has certainly relieved many thousand people, yes hundreds of thousands of people, of chronic catarrh.

Constipation was my chief difficulty in treating these cases. I often felt that it would be better if a laxative element were added to Peruna. I feared to do so, however, first because of the number of catarrhal patients who needed no laxative, and second I was afraid of making such a radical change in a remedy that was already doing so well. Thus it was that I continued to prescribe with the Peruna a bottle of Manalin to those who needed a laxative. At last, under circumstances explained in my booklet, I was constrained to add the laxative element to Peruna. This constitutes what is now known as the revised Peruna.

Now those who take Peruna will first find themselves promptly relieved of their constipation. Second, the catarrh will gradually disappear. And once the catarrh is cured the constipation leaves permanently. Then if you follow the advice given in my book you will never have to take pills any more. Cathartics and laxatives you can ignore. You will be permanently relieved of both your catarrh and the constipation. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet. PERUNA ALMANAC FOR 1913.

Keeping the Body in Repair

Nature intended that the body should do its own repairing—and it would do so were it not for the fact that most of us live other than a natural life.

Nature didn't intend that we should wear corsets, tight collars or shoes, nor live in badly ventilated and draughty houses, nor eat and drink some of the things that we do, nor ride in street cars when we should walk. The consequence is that the body when it gets out of order must look for outside help to make the necessary repairs.

Mayor A. C. Pinson, with his Democratic ticket, is re-elected by an overwhelming majority, and goes into office for the next two years with the most flattering majority he has ever received. He polls more votes by over a hundred than all the other parties which were opposing the Democratic ticket. The majority of the entire Democratic ticket will reach between three and four hundred and makes a clean sweep of what opposition there was to the present administration. All the wards were Democratic by a large majority and shows which way the sentiment of the people is drifting. The election today is a compliment and endorsement of the administration of Mayor Pinson and the majority shows that the people appreciate a good thing when they have it.

Huntington, W. Va.—The conditions here are improving rapidly, and it is expected that by morning the water will have left the city.

Plans for caring for the homeless are being carried out, and 2,000 persons are being fed and housed by the city. The loss here will reach \$1,000,000.

A temporary supply of gas has been turned on, but the electric light plant is closed. Street car traffic will not be resumed for several days. The C. and O. Railroad is running trains west for the first time since the flood. The trains are running from here to Ashland and over the Lexington division to Winchester, and thence over the Louisville and Nashville Railroad to Cincinnati.

The loss of life will be no less than 10, it is believed. Three men were drowned when trying to cross the Ohio River in West Huntington.

Winchester, Ky., April 4.—Two negroes were killed, two more were badly wounded, two white men are lost and another has a broken arm as the result of a cave-in this afternoon of a tunnel at the railroad camp of Johnson and Briggs at

WHAT SAVED HER LIFE

Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.

Riversville, W. Va.—Mrs. Dora Martin, in a letter from Riversville, writes: "For three years, I suffered with womanly troubles, and had pains in my back and side. I was nervous and could not sleep at night."

The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui.

Now, I am entirely well.

I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends."

For fifty years, Cardui has been relieving pain and distress caused by womanly trouble. It will surely help you. It goes to the spot—reaches the trouble—relieves the symptoms, and drives away the cause.

If you suffer from any symptoms of womanly trouble, take Cardui. Your druggist sells and recommends it. Get a bottle from him today.

Briggs Station, nine miles from this city. The accident occurred on the farm of Mike Baker. The men were eighty feet back in the tunnel. Ambulances and physicians have been rushed to the scene.

Ashland had no need of Government aid during the recent flood. It was offered but was declined by the Mayor, Dr. A. H. Moore, who said his city was able to take care of her people with ease.

The report was current here Sunday and Monday that Johnny Kash, son of Asbury Kash, of Gillmore, with his wife and one or two children, had been drowned in the flood of water at Hamilton, Ohio. What seemed to confirm the report was the further statement that Mr. Kash had telegraphed the mayor of Hamilton, receiving a reply in the affirmative, and had gone on the noon train Sunday to bring home the body of his son, at least.—Hazel Green Herald.

Frankfort, Ky., April 4.—S. B. Brown, sheriff of Morgan co., lost his office this year because he failed to file his bond before March 1. He got his quietus from the auditor on February 26, but failed to file a bond with the county judge in time. The county judge appointed Frank Kennard as Brown's successor and the bond of the new sheriff was received at the Auditor's office to-day. Brown is the only sheriff in the State who lost his office this year by failing to file bond in time.

OBITUARY.

Cecil, beloved son of Russ and Carrie Francis was born January 7, 1910, aged 3 years 1 month and 9 days, and on Tuesday, March 4, '13, his spirit went back to the God who gave it, and who said, "Suffer little Children and come Unto Me."

It is so hard for us to understand why this little one should be taken from us. God's ways are not our ways and He in His wisdom knoweth best.

The memory of his innocence will live on in the hearts of those who knew and loved him. Cecil was a good, kindhearted child and loved by all who knew him.

Besides a heart-broken father and mother he leaves to mourn his loss a little sister, to whom he was much attached; uncles and aunts and a host of other relatives.

Never shall thy memory fade; Dearest thoughts shall ever linger Round the grave where Cecil is laid.

CATARRH IS EASY CURED!

Now here is a proposition I am making to all who suffer with Catarrh to prove to you that I have discovered a treatment that will positively cure catarrh, upon receipt of 50cts. I will mail to your address postpaid one Box and one Bottle of my Vegetable Compound Catarrh Cure and if you don't say that it is the best treatment you ever used I will gladly refund your money. I will trust your honor not to ask for it unless you are entitled to it according to the terms of my proposition. Guaranteed by all dealers to cure or money refunded by manufacturer. Ask your druggist or General Merchant for Fitzpatrick's Catarrh Cure. If they don't keep it in stock and will not order it for you, send your order direct. In regard to my reliability refer you to the Louisa National Bank.

Do not delay, more lives are lost by procrastination delay, putting off till tomorrow or next week or next month the treatment of disease than have ever been lost in war. I earnestly hope to hear from every sufferer, inclosing the small sum of 50 cts for treatment. This amount has cured others, which I can prove by their testimonials acknowledge to before Notary Public. Don't neglect yourself as no doubt you are aware that Catarrh causes a general break down in health and may prepare the way for that dreadful disease consumption.

BAGGAGE MASTER KILLED.

Another deplorable railway accident cost Charles Levy his life last Friday morning. Young Levy was acting baggage master on the passenger train between Shelby and Jenkins, and while his train was coming down the creek he endeavored to make his way from the baggage car to the engine, and losing his balance, fell between the cars and was ground to death just a short distance below Yeager, the first station above Shelby. The train had proceeded a mile before he was missed. Becoming alarmed the conductor ordered the train to back up in search of the young man, and his badly mutilated body was found lying on the ties just a short way below Yeager depot. The fragments were gathered up in the best shape possible and taken aboard the baggage car under cover, and without the knowledge of the passengers, and was taken on to Shelby, and thence back to Jenkins, where the body was prepared for burial. A special train conveyed it to Pikeville Sunday and funeral was held from the Presbyterian church. Interment took place at the Pikeville cemetery.

Levy was a very popular young man, and had many friends both here and at Jenkins. His home was in Sacramento, Cal., but so far as can be learned, he had no relatives in this country; one uncle is in South Africa, but no others could be found for notification.

The body of the young man was brought to Pikeville by special train from Jenkins Sunday afternoon, and a vast crowd of people came down from Jenkins and Shelby. The funeral train did not draw into the Pikeville station, but halted at the Huffman avenue crossing at 2:00 o'clock, and the body was removed from the coach and carried from thence to the Presbyterian church, where a crowd had already assembled. The gathering was so great in numbers that the building could not accommodate all, and many were forced to remain outside. Such a concourse of people has never before attended a funeral in Pikeville. When the casket was placed in the church, it was covered with a beautiful floral tribute which his friends among the railway fraternity had prepared for the occasion. Rev. M. D. At the conclusion of which the funeral cortege proceeded to the Pikeville cemetery, where the last rites were performed, and Mother Earth opened her bosom to receive the last remains of the unfortunate young man.

H. R. Calloway, of Mt. Hope, W. Va., who is the manager of the new

Columbia Theater here, arrived last week to aid in getting the new theater building in shape for the first performance, which will be in the next few days. A foreign pianist, drummer and machine operator have been engaged.

NEW JAIL FOR PIKE COUNTY.

Last week the fiscal court was in session here, and at the close of the session that body empowered Judge H. H. Stallard to draw the plans for a new jail house, and prepare to award a contract for the building, also a contract for the installation of a heating apparatus to heat the new jail and the court house. These contracts will be awarded at once, and before the summer draws to a close Pikeville will have a new and modern home for the retention of its criminals, instead of the present reminder of Russia.

The court was solid for a new jail and for steam heat in court house. The jail will cost from \$12,700 to \$14,000 and will be built according to the plans given recently. Work on the jail will start this summer, probably in August, but will not be completed until next year. The basement will be built this year in order that the heating plant may be in operation this winter.

ACCIDENTALLY KILLED.

Jack Keathley was accidentally shot through the head on McClure creek at the Hewlett Construction Co. camps last Sunday morning. The young man was examining a revolver when it went off in his hand. The bullet entered just under the chin and ranged upward through the head, and he lived only a few minutes after receiving the fatal wound. His body was brought to Elkhorn City for burial last Saturday.

OWLS ORGANIZE AT HELLIER AND ELKHORN CITY.

Mr. Meritt and John Scalf have been engaged during the past two weeks in organizing an Order of Owls at Elkhorn City and Hellier. Mr. Meritt says there will be at least one hundred charter members at each place, and the lodges will be instituted at Elkhorn City on May 26, and at Hellier this Saturday night. The membership at both places are very enthusiastic, and it promises to be a great success.

LIGHTS FROM JENKINS.

The Pike Light and Power company has entered into an agreement with the Consolidation Coal Co., at Jenkins, whereby that company is to

furnish power for distribution among the former company's patrons at Pikeville from its immense 5-unit power plant there. This agreement, of course, cannot go into effect until the power line now proposed is constructed from Jenkins via Beaver creek to Van Lear. This will mean, of course, that the power house at Pikeville will be closed, and the high-voltage current from Jenkins will be handled through transformers in a sub-station here.

SOCIETY.

A dance was given by several of the young society people of Pikeville at the rink last Monday evening. Many were invited from Louisville, Paintsville, Van Lear and Prestonsburg; but owing to the fact that the passenger train did not reach here until a late hour, these guests failed to be present. But with several local couples, among whom was Miss Caroline Cox, of Richmond, Ky., the guest of Mrs. Chas. Fuller, in whose honor the dance was given, the revellers made merry until a late hour; and, in spite of the small attendance, it was a brilliant and much enjoyed social event.

Mrs. J. A. Lewis, wife of the pastor of First Methodist Church, gave a pretty entertainment to a large number of friends at the parsonage Wednesday afternoon. ULYSSES.

Freel Miller's children, who have been confined to their rooms with a severe attack of measles and pneumonia, are all improving nicely, except the 16-year-old daughter Nerva who died more than a week ago. She had scarcely begun to recover from measles when pneumonia developed which caused her death.

The whole family of children, 10 in number, were down with measles and several of them with pneumonia also, and the only nurses Mr. and Mrs. Miller. The neighbors did what they could to relieve them in their trouble. They have the deepest sympathy of the entire neighborhood.

The corn club organized here last Saturday by Mr. J. B. McClure is quite interesting to the citizens of this place. Several boys have already joined it with promise of more names being added to the list soon.

The recent high waters did not damage this locality very much, but the wind has done considerable damage blowing down unroofing and wrecking buildings of all kinds. John Boyd's residence was unroofed, the porch blown down and the family, including a child down with pneumonia, had to be removed to one of their neighbors moved to one of their neighbors until the house was repaired.

BAGGAGE MASTER KILLED.

Another deplorable railway accident cost Charles Levy his life last Friday morning. Young Levy was acting baggage master on the passenger train between Shelby and Jenkins, and while his train was coming down the creek he endeavored to make his way from the baggage car to the engine, and losing his balance, fell between the cars and was ground to death just a short distance below Yeager, the first station above Shelby. The train had proceeded a mile before he was missed. Becoming alarmed the conductor ordered the train to back up in search of the young man, and his badly mutilated body was found lying on the ties just a short way below Yeager depot. The fragments were gathered up in the best shape possible and taken aboard the baggage car under cover, and without the knowledge of the passengers, and was taken on to Shelby, and thence back to Jenkins, where the body was prepared for burial. A special train conveyed it to Pikeville Sunday and funeral was held from the Presbyterian church. Interment took place at the Pikeville cemetery.

Levy was a very popular young man, and had many friends both here and at Jenkins. His home was in Sacramento, Cal., but so far as can be learned, he had no relatives in this country; one uncle is in South Africa, but no others could be found for notification.

ULYSSES.

Freel Miller's children, who have been confined to their rooms with a severe attack of measles and pneumonia, are all improving nicely, except the 16-year-old daughter Nerva who died more than a week ago.

She had scarcely begun to recover from measles when pneumonia developed which caused her death. The whole family of children, 10 in number, were down with measles and several of them with pneumonia also, and the only nurses Mr. and Mrs. Miller. The neighbors did what they could to relieve them in their trouble. They have the deepest sympathy of the entire neighborhood.

The corn club organized here last Saturday by Mr. J. B. McClure is quite interesting to the citizens of this place. Several boys have already joined it with prospect of more names being added to the list soon.

The recent high waters did not damage this locality very much, but the wind has done considerable damage blowing down unroofing and wrecking buildings of all kinds. John Boyd's residence was unroofed, the porch blown down and the family, including a child down with pneumonia, had to be removed to one of their neighbors until the house was repaired.

EUREKA.

Eyes On Eastern Marshals.
